

Notice – April 28, 2014

RECYCLING CHANGE

We have changed vendors for recycling. Unfortunately, we are unable to continue with “single stream” recycling. Materials will need to be sorted into the six large green containers in the green trash shed near the gate. The containers will be labeled for each type of material.

Materials currently accepted (subject to change by regulation or available recycling receiver) include:

- 1. Broken down cardboard boxes, which may be placed behind or between the containers.**
- 2. Newspaper, magazines and other bulk paper.**
- 3. Metal food cans and small scrap metal items.**
- 4. Aluminum cans (soda, beer, cat food cans)**
- 5. Plastic bottles and containers.**
- 6. Unbroken glass containers.**
- 7. Styrofoam.**

Please ensure that materials are as clean as possible to control vermin. The bins will be emptied weekly

Thank you for making our community a “greener” place by recycling!
