

NOTICE TO SADDLE RIDGE PROPERTY OWNERS

TUESDAY, OCTOBER 8, 2013

A large road repair project will start on Friday, October 11. Walnut Flats Road between Bear Paw Road and Sky Top Road, and up onto Sky Top Road will be under repair on Friday and Saturday. Walnut Flats Road in that area may be closed for short periods of time. A safe traffic lane will be made and kept open at the end of each workday.

Work will continue next week on Walnut Flats Road in the area below the Tipps, on some low lying areas along Walnut Flats Road, and at the intersection of Walnut Flats Road and Grouse Top Road. Walnut Flats in those areas may be closed for short periods of time. A safe traffic lane will be made and kept open at the end of each workday.

Please drive carefully in the work areas. Large equipment and trucks will be in use. Please do not move barriers and drive into work areas when a road is closed, as it may endanger your safety and that of the workers. We will do our best to ensure an alternate route is available, if possible, or that the period of time the road is closed is as short as possible.

Additional road projects are anticipated throughout October and November. Updates will be provided on locations and possible traffic impacts prior to work starting in a new location.

We apologize for any inconvenience. Thank you for your cooperation.
